— Workshop Overview

The fact is that Excel is the accountant's, finance and business professional's best friend. Companies everywhere are overwhelmed by the abundance of unstructured and unclean data. Monthly, quarterly and annual closings are immensely data driven and require moving and exporting data from 'ERPs' and databases to Excel. This hands-on course will advance your data massaging, modeling, integration and automation skills to new levels. You will also master normalization and massaging of noisy data, preparation of reports, analysis and reconciliation. This is an Excel-based course that will help you develop an exclusive level of expertise that adds immediate value to your job and company.

Why Attend

20% of the course is 'design and structure' focused while 80% uses MS Excel as a powerful tool to perform daily, monthly and periodic tasks. Groups and individuals will be required to complete exercises, case studies, and projects on a daily basis.
