— Workshop Overview

This Certified Data Privacy Solutions Professional (CDPSP) training course provides an in-depth understanding of data protection and privacy compliance, preparing participants to implement robust privacy frameworks and controls. The course covers global data protection laws, risk management, governance, and preparation for industry-recognized certifications like CDPSE.

Why Attend

This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This training course is interactive and challenges one to think. The tutor will guide and facilitate learning, using direct input, discussions, case studies, exercises and video

Who Should Attend

Data protection officers
Privacy compliance professionals
IT security managers
Anyone preparing for data privacy certifications

— Learning Objectives

- Gain a thorough understanding of data protection laws and regulations
- Learn to implement and manage effective privacy frameworks and controls
- Develop skills to assess and mitigate data privacy risks
- Prepare for data privacy certification exams

Course Outline
