— Workshop Overview

Visions and goals are achieved when tasks are understood, priorities are established and deadlines are properly set. This course is designed to help participants develop the right capabilities to manage tasks, evaluate and establish the right priorities, and schedule activities based on clearly established deadlines. The course covers different methods and techniques to encourage task ownership while coordinating with other team members. It also covers how to influence those around us by properly setting expectations and seeing tasks through to successful completion.

Why Attend

The course uses self-assessments and a wide mix of business cases that promote healthy discussions around the importance of managing multiple tasks, deadlines and priorities. Participants will benefit from role plays covering workplace challenges related to handling tasks, deadlines and priorities. They will learn how to

Who Should Attend

This course targets professionals, from all industries, who want to acquire essential skills to create and develop an effective and efficient workplace environment. It is designed for team leaders, supervisors, managers and section heads who are interested in improving their personal productivity or that of the people they manage or
