— Workshop Overview

Supply Chain Development is presenting new challenges for fleet managers, as supply chains become increasingly vital across various sectors, including service and government organizations. Ensuring safety remains a top priority to protect the workforce and other stakeholders. Fleet Management plays a crucial role in efficiently distributing products through extended supply chains and delivering services. The reputation of our organization hinges on the timely and cost-effective management of these operations. This Fleet Management Training Course will help delegates develop the Fleet Management strategy and build sustainable operations.
